

25 October 1957

MEMORANDUM FOR: Chief, Analysis Branch
Chief, Processing Branch
Chief, Special Control Branch

SUBJECT : Dissemination of CS by Cable and CS-DB By Cable Reports
to ONE and OCI.

1. CS by cable and CS-DB by cable reports are transmitted to the Processing Branch with the regular CS reports. The current procedure is to hold the ONE and OCI copies of these reports for pick up by the Cable Center on the day they are received. They are then distributed to ONE and OCI by Cable Center on an expedite basis.

2. This is an old procedure which was established to circumvent the CIA dissemination backlog which held up the distribution of these reports to ONE and OCI. Since there no longer exists a dissemination backlog of CIA reports and controls have been established to prevent future backlogs, the above procedure is no longer necessary and it is being discontinued immediately. Henceforth these reports will be put in an expedite batch for dissemination by the Analysis Branch. Reports for OCI will be sent direct. Reports for ONE will be sent via the Processing Branch through normal delivery channels. ONE has advised they have no objection to this procedure.
